## STERILE DISPOSABLE BIOPSY PUNCH WITH PLUNGER SYSTEM

The Miltex® Sterile Disposable Biopsy Punch, featuring the patent pending internal plunger system, addresses the challenge of removing a skin specimen when it becomes lodged inside the metal lumen of the punch. The internal plunger system operates similarly to a retractable pen, providing the user with effortless ejection of a lodged skin specimen. This unique feature can help eliminate the problem of "crush" artifact.

Punches are available in five sizes, marked clearly on the handle, blister pack and box. Punches are individually packed in color-coded, transparent, sturdy blister packs, 25 per dispenser box.

REF	Size
33-31AA-P/25	1.0mm w/plunger
33-31A-P/25	1.5mm w/plunger
33-31-P/25	2.0mm w/plunger
33-32-P/25	3.0mm w/plunger
33-34-P/25	4.0mm w/plunger
